

FIFTY SHADES OF SHADE

PRESENTED BY AUDI ROSS

BEDFORD GARDEN CLUB MEETING
TUESDAY, FEBRUARY 9 @ 9:30 AM
AT THE BEDFORD LIBRARY, MUDGE WAY, BEDFORD

If your gardens were once sunny but are now shady from overgrown trees, this talk will tantalize you with gorgeous shade gardens, reveal guaranteed easy design secrets and present fifty diverse and exciting plants.

Andi's love of nature began in early childhood and played an important role throughout her life. Nature has been her teacher, her companion and her friend.

Her love of nature is what drew her to re-locate to Plum Island two decades ago. The natural beauty, light and strong presence of nature sprouted her interest to study horticulture and landscaping.

Everyone is invited to the meeting, and we always welcome new possible members. Visit our website at www.bedfordgardenclub.org, or call: 781-275-8794.
