## LETTER TO THE EDITOR

APRIL 26, 2016

I am humbled to be a member of the generation of elected officials that was inspired by the example of John McCulloch.

John's service to the town was lengthy, effective and always thoughtful, spanning a significant transitional period that presented a variety of challenges. John confronted them all, making choices he deemed best for the town and never compromising his personal values.

Our community is saddened by his passing but strengthened by his rich legacy.
